Technology partners can expect:

- Education to help achieve the certification requirements for the MBS competency.
- Assistance in building skills, relaying tips and tricks, and good implementation practices.
- Insight into exam preparedness.
- Top-ranking Microsoft Certified Trainers (MCTs) with implementation and deep product experience that want to see you succeed.
- Hard copies of the training manuals used for each course.
- Potentially obtain your certifications\* during the course.

\* At the end of the each track, each attendee will receive a **FREE** Prometric exam voucher.

### Target Audience

The bootcamp is intended for technology partners, ISVs of Microsoft Dynamics™ GP and consulting professionals who are on the implementation team, administering or using the financial management modules in Microsoft Dynamics GP. This audience typically includes people who are tasked with assessing customer's business needs and advising them on the use, configuration and customisation of the application. Additionally, people responsible for training or supporting Microsoft Dynamics GP benefit from this course.

### Prerequisites

- Basic knowledge of business acumen and accounting principles.
- Previous ERP experience is desirable, not required
- Completion of the FREE [Collection 8835: Orientation for Microsoft Dynamics GP 10.0](#) Elearning course is highly recommended, but not required

**Cancellation Policy:** Classes are subject to cancellation by Microsoft.

**Questions?** Contact [Partner Readiness](#).
